	MEMORANDUM FOR:	Deputy Assistant Director, Current Intelligence
	SUBJECT:	Rumored "High Echelon Watching System"
·	REFERENCE	Memorandum for the Record, from Chief/CIA Watch Officer Section, dated 13 November 1952
	1. You referred the referenced memorandum to AD/IC, inquiring whether there was anything the CIA watch needed to know about the subject. 2. OIC has inquired of the Office of the Executive Assistant to the DCI and has been informed that no such system is known to anyone in the Administration Building. We have also inquired of OCB, which did not have available either of the supposed JCS papers. OCD did indicate, however, that 25X1A9/(currently the Agency's Emergency Planning Officer, 1046 I Building) was custodian of papers similar to these. We referred the referenced

25X1A9A	of OC	I.
25X1A9A	3. We regret taking so long to find out so little, but suggest that OCI pursue the matter with and feel free to ask OIC for such further assistance as may be necessary.
